Registration number: 37439.

This communication has attached a paper copy of the sequence listing for the previously mentioned United States patent application. The paper copy of the sequence listing is identical to the Computer Readable Form submitted electronically on July 13th 2005.

Any applicable fees associated with the filing of the sequence listing have been paid.

This submission does not go beyond the disclosure of the application as originally filed (i.e., contains no new matter). It is filed to comply with the sequence rules. It is identical to the sequences disclosed in the application as originally filed.
